Adjustments due to COVID-19

Our activities have been adapted to comply with the instructions of the public health authorities. Two school groups can participate on each visit. All materials are disinfected between each group visit.

Early settlement by the French (Champlain), the fur trade, the historical and geographical evolution of the site (seaport, docks), architecture (stone houses, vaulted cellars, fire protection) and the commercial role of Place-Royale (merchants and international trade) are covered in this guided tour of the site. The tour also includes the role played by the Native peoples, wars, and the system of defence (Royal Battery).

Instructions

- > Meet at the Musée de civilisation at 85 Dalhousie Street.
- > The activity will take place even in rainy weather. Please dress accordingly.
